A robot arm?

“Robot arm...  
Military grade...  
One bitcoin...”

ONE bitcoin???  
That's so cheap!!  
You can become a  
cute robo like me!

A robot,  
huh...

Hmmm...

As a human, I  
can enjoy food,  
sleep, emotions,  
sex, death...etc.

A-a-a-as a robot you  
can enjoy robot sex!  
Kernel death! Artifi-  
cial emotions!!! Way  
better!!!

You already lost  
your job at McD to  
a robot! It's the  
only way to get  
a job nowadays

Maybe you are right.

It is 2432 after all ... I guess I have no business being human in this age

That's the spirit!

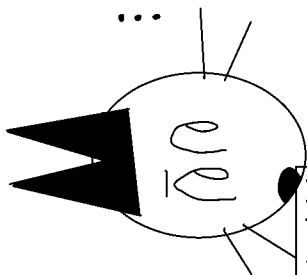

...

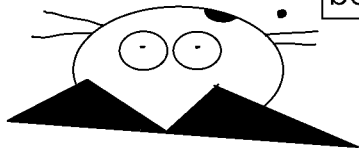

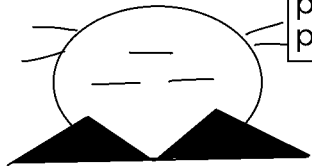

... But how will a single arm make me a robot?

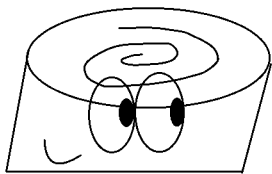

It's just the first step of a long and painful process!

But don't worry the government gives you money for being a robot

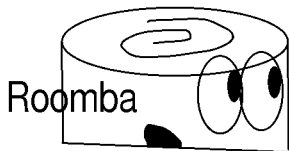

...

After the arm you can replace your heart, your eyes, your penis ...

I don't even have one of those in the first place!

A heart?

... nevermind

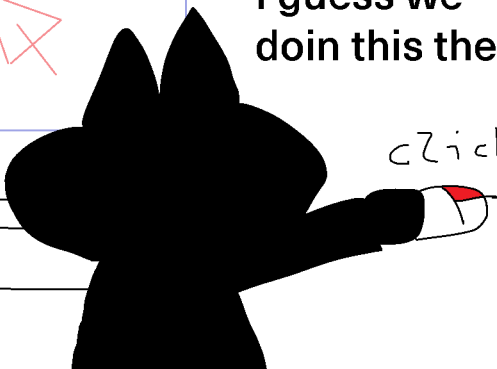

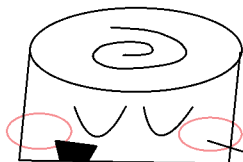

Buy?

1 BTC

I guess we doin this then!

click

perfect!!

Now we just need to amputate your existing arm!

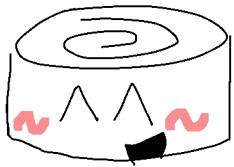

It will be quick and painless if you take a Nuprin™ first!

**"Tittys out"**—an expression of human celebration?

Enjoying this...?

?

Huh? Your milk sacs?

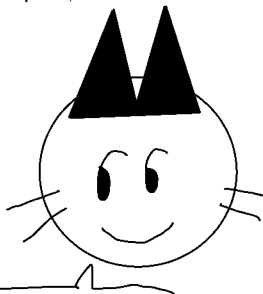

Call 'em what you want but they are fun!

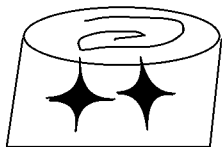

Yes!

I suppose it is "fun" to produce infant food with a certain bouncy bodily organ!

I'm never having kids but it's true I guess!

Be glad you still have them its bone cutting time

Using wiki ↓

*high on  
nuprin*

So like what's  
gonna happen  
to my arm

oomba

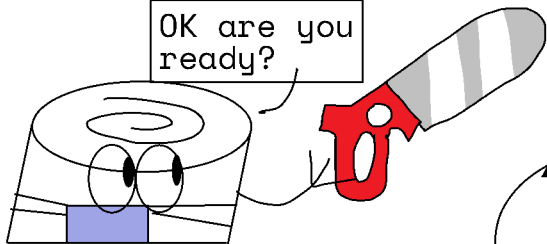

Im cutting  
it off.

Yeah but will I  
be able to move  
it and stuff once  
it's off—Like a  
psychic link

No. You  
just won't  
have a right  
arm until  
you get the  
new one.

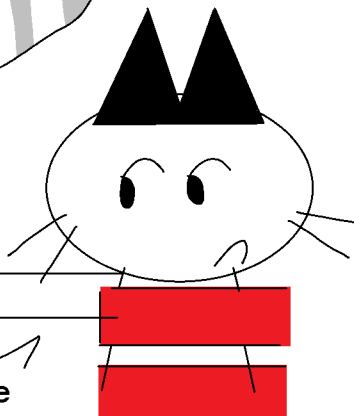

OK are you ready?

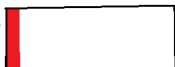

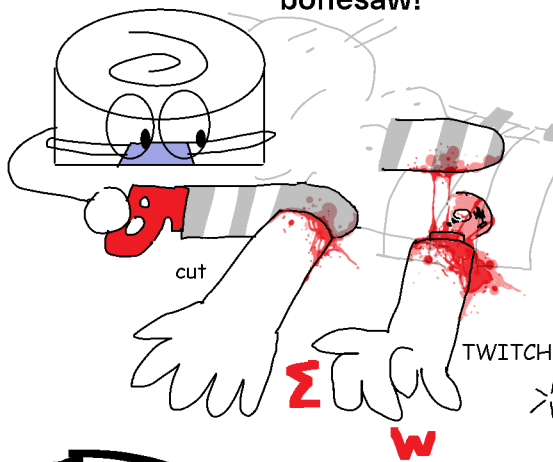

This might hurt

Yeah I think I am ready for it.

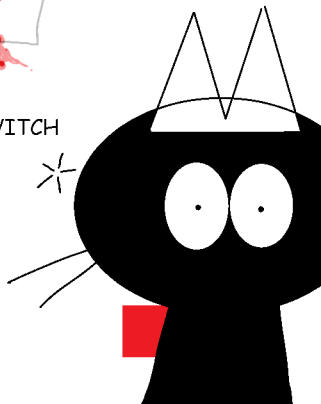

"Bring on the bonesaw!"
